**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election without traverse of Group I, claims 1-10 in the reply filed on March 19, 2009 is acknowledged.

***Specification***

2. The abstract of the disclosure is objected to because legal phraseology, i.e., "means" and "comprises", should be avoided in the abstract. Correction is required.

See MPEP § 608.01(b).

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-6, 9, and 10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Conrad (Figs. 1-3).

Applicant should note that with respect to instant claim 2, the base (52, 54) of the center body is considered to be cylindrical, although most of it is cut away between the portions (54) of the cylindrical base that remains to allow for exit of the mixed gas/liquid flow from the nozzle.

***Allowable Subject Matter***

5. Claims 7 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
